Jordan Lee

Data Analyst | SQL, Python, Tableau | Turning data into decisions
Toronto, Ontario, Canada

Summary

Analyst who turns messy data into decisions. I build dashboards that teams actually use, and I like explaining numbers in plain words to people who don't live in spreadsheets.

Experience

Northwind Analytics

3 years 7 months

Senior Data Analyst

January 2024 - Present (1 year 10 months)

Toronto, Ontario, Canada

- Built a Tableau sales dashboard used weekly by 40 account managers.
- Automated a monthly reporting process in Python, saving 12 hours a month for the finance team and cutting errors.

Data Analyst

April 2022 - December 2023 (1 year 9 months)

Toronto, Ontario, Canada

Partnered with finance to define 15 shared KPI definitions that are now used across the company in every quarterly business review.

Maple Retail Group

Junior Analyst

June 2020 - March 2022 (1 year 10 months)

Mississauga, Ontario, Canada

Wrote SQL queries for store performance reports.

Education

University of Toronto

Bachelor of Science - BS, Statistics · (2016 - 2020)
